Instructions

Each of the 5 overlapping 9x9 sudoku puzzles follow normal sudoku rules, with the added condition that all shaded cells must contain even digits and all non-shaded cells must contain odd digits.

Support

I made this puzzle while in the hospital recently for ulcerative colitis. If you enjoy my puzzles and feel so inclined, donations to help me with my medical expenses would be much appreciated. You can find a PayPal link back over at http://thegriddle.net

9		5						8				3	9							5
	3						9												4
