## 0-2-5

The grid is divided into several shapes. Each shape either has all zeros, twos, or fives in its boxes. The numbers outside of the grid represent the sum of digits in the boxes in each row. A sample puzzle has been completed for you below.

| $\star$ | 9 | 20 | 9 | 7 | $\star$ | 9 | 20 | 9 | 7 | $\star$ | 10 | 9 | 14 | 7 |  | Created by David Millar on May 15, 2006. |  |  |  |  |  |  |  |  |
