

## griddle Lying Sum Sudoku

November 2, 2010

http://thegriddle.net · http://twitter.com/thegriddle

## **Instructions**

Fill the grids at right with digits from 1 to 9. Each row, column, and 3x3 block must contain each of the 9 digits with none missing and no repetition.

The small numbers in the top left corner of grouped cells represent the sum of the digits in those cells.

**HOWEVER**, red sums denote sums that are LYING! The cell in the center of each 3x3 block is the total of the differences between lying sums and true sums.

## Example

In the sample below: 6 and 9 make 15 (3 away) 7 and 8 make 15 (2 away) **Total difference of 5** 

<sup>5</sup> 1	<sup>5</sup> 2	3
4	5	<sup>12</sup> 6
<sup>17</sup> 7	8	9

## **Errata**

The fifth puzzle was missing the given when originally posted.

3	9		16		8	8		15
		!	9 •		1	8		1
16		1	-	12		1	8	
8		9	2	16		11	:2	
17		1	-		11	1		4
	1		6		1	16		1
9		17	8		4	8		7
10		1	- 17		1	8		1
	7		1	8		1	12
