Hey Zoho users, see more of my puzzles at <http://www.thegriddle.net/>!

story logic

Use the clues along with logic to determine which person ordered which sandwich, drink, and side dish.

Either Rafael or Eli had olives on their sandwich, but neither had tuna.

Either Dave had yogurt with a chicken and red onion sandwich, or Steve had fries with a beef and mayo sandwich.

The ham sandwich didn't have cheese or mayo on it.

Rafael did not have mustard with his sandwich and salad.

The chips and juice came together with the sandwich that had tuna.

Coffee came with the meal with fries.

Water came with the sandwich that had mayo on it.

The salad came with the turkey sandwich and either mustard or olives.

Sam's sandwich has beef but didn't come with tea or coffee.

Rafael had cola and Dave had either tea or coffee.

Eli had the meal with fries.
