

Story Logic

Three friends recently moved to different states (including Maine). Each one has a new house with a different color (one is red), and each one has a different new job (including a job in sales). Use the clues below to determine which of the friends has which house and job. The first clue has been marked in the grid for you.

- Jacob's house was white, but he did not move to Texas.
- The electrician's house is either blue or white.
- The house in Texas, which does not belong to Steven, belonged to the baker.
- The blue house in Washington belonged to either Jacob or the electrician.

	Electrician	Baker	Salesman	Maine	Texas	Washington	Blue	Red	White
Jacob					X		X	X	0
Louis									X
Steven									X
Blue									
Red									
White									
Maine									
Texas									
Washington									

Loop de Loop

In this puzzle, fill the 8 boxes around each blue square with the digits from 1 to 8 with no repeats.
