Spiral Crossword and Sudoku Puzzle

April 30, 2007

In the puzzle below, you will be solving two separate 9x9 puzzles with the following steps. First, solve the crossword with the clues below. Each box will contain two letters when finished and the answers will overlap at least one box from the last clue to the next. Secondly, look in the grid for the two-digit pairs from the table and place the corresponding digits into the sudoku grid. Then, use the givens and the clues created by the crossword to solve the sudoku puzzle. Remember, in a sudoku puzzle each column, row, and 3x3 square will have each digit from 1 to 9 with no repeats.

1		2		3			4	5
14	15		16					
			20	21		22		6
			28					
13	19				29	23		
		27		30				7
		26		25		24	17	8
				18				9
			12			11		10
