

Haunted Mirror Maze

01/02/08

The grids below represent top-down views of mirror mazes containing mirrors and monsters. Fifteen of the non-mirror spaces are occupied by vampires – that is, their reflections cannot be seen in the mirrors of the maze. The other fifteen spaces are occupied by ghosts – which cannot be seen head-on, only as reflections in mirrors. The number outside the maze represent the number of people seen when peering into the maze – use these to identify the entities!

The 3 shaded squares all contain the same entity – either all vampires or all ghosts.

Ghosts		Vampires	
	0		2
0	G	0	1
0	G	0	1
0	↘	2	0
	0		0

Warning – this is a tough one!
