Classic Video Game: Zoop!

Use the clues to figure out what the pieces are. This diagram is like an inverted game of Zoop. The zapper is on the outside and is referred to as 'Shot Color'. The 'Result Color' is the color the zapper will be after shooting that row/column of the grid. The 'Result Score' is the points you'd gain from that move. Some of the rows and columns have no clues, but they are unnecessary.

	→ Result Score	X	100	X	100			
	→ Shot Color	X		X				
	→ Result Color	X	★	X		↓ Shot Color	↓ Result Color	↓ Result Score
10000								600
X	X	X				X	X	X
300								0
300								300
↑ Result Score	↑ Shot Color	↑ Result Color	X				← Shot Color	
			X				← Result Color	
			X	100	600	400	← Result Score	

Collect 5 springs to clear the board!
