the **griddle** Curvedoku

In these puzzles, fill the grid with digits from 1 to 9 so that each row-column, column-row, square set, and curve set contain 1 of each of the digits with no repeats.

Clues include:
Shapes wherein matching shapes contain the same digit.
Arrows wherein the arrow points to the next highest digit within that set. (1 to 2, 2 to 3... 9 to 1)
Brackets wherein one cell is greater or less than the other.
Given cells.
