

the griddle

Curve Sudoku

February 7
2010

In these puzzles, fill the grid with digits from 1 to 8. Each row, column, and **unshaded shape** of each grid should contain each digit 1 to 8. The 4 curve slices should contain no repeat digits.

These puzzles were created by David Millar. More puzzles can be found on <http://www.thegriddle.net>. My puzzles are available for your publication, game, restaurant menu, etc. Contact me at davmillar@gmail.com for information.

Grab puzzle updates, give me your requests, and chat me up on Twitter at <http://twitter.com/thegriddle>, and you can grab the **e-mail updates** or **RSS feed** from <http://thegriddle.net> (powered by Google Feedburner)

Fixed 2/16/2010 thanks to David.
