

# the griddle 0-2-5

April 26  
2010

Fill the grid with the digits 0, 2 and 5. The digits must add up to the specified row and column sums. In each shape in the grid, all squares must contain the same digit.

These puzzles were created by David Millar, and you can find more at <http://thegriddle.net>. Grab the site's RSS feed or email updates for puzzle updates or follow @thegriddle on Twitter at <http://twitter.com/thegriddle>
