

Puzzles created by David Millar. To find more puzzles like this go to <http://www.thegriddle.net> where you can also get e-mail and RSS updates, or get updates and talk to @thegriddle on Twitter at <http://twitter.com/thegriddle>

0, 1, 2, 4, 7

-2, -1, 0, 1, 2

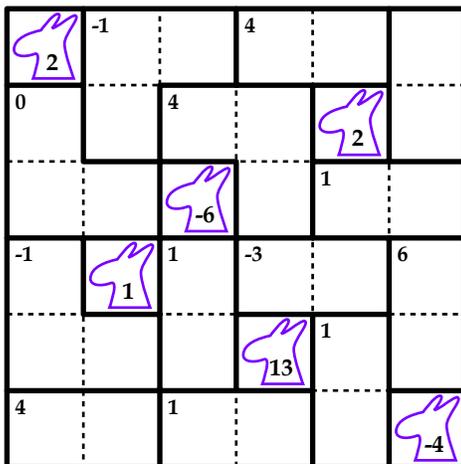

1, 2, 3, 4, 5

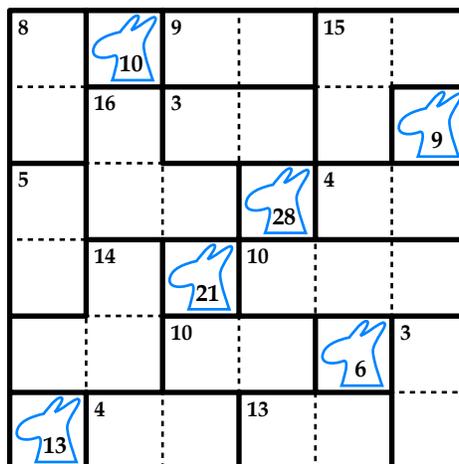

In these puzzles, fill each row and column with one of each number with no repeats and make sure the given sums are satisfied.

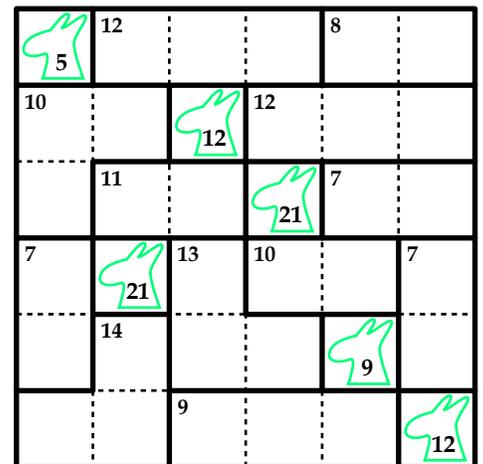

The knight squares count for 0, and display the sum of the squares within the knight's attack range (as in chess). *See above left for sample.*

1, -2, 3, -4, 5

1, 2, 3, 6, 7

2, 3, 4, 5, 6
