

In each puzzle, create a single closed loop through the grid along the grid lines. Two's note that the cell must have two walls around it in the loop.

Shapes each represent a number 0 to 3 telling how many sections of the loop surround the cells. Each shape has a different meaning per puzzle.

**Dark Masyu circles** must be placed at a 90 degree turn with straight sections before and after.

**Light Masyu circles** must be placed in a straight section with a turn before and/or after.

Each puzzle uses the number 22 because today is my 22nd b-day.

If you enjoy my puzzles, it would be a great birthday gift to buy me a cup of coffee through the PayPal link over on the site at <http://thegriddle.net>

Alternately, you could support the puzzles I make by buying the Haunted Mirror Maze iPhone app. It's only \$1 right now, and comes with 50 puzzles - more soon. See screens & more at <http://thegriddle.net/haunted>

Puzzles created by David Millar. For more puzzles like this go to <http://www.thegriddle.net> where you can also get e-mail and RSS updates. Get updates and talk to the author over on Twitter with [@thegriddle](http://twitter.com/thegriddle) over at: <http://twitter.com/thegriddle>

**22**
