# Path to the IWL

Create a loop through the highways with no intersections or dead-ends. You must go through each overpass and cloverleaf once. Each overpass can only be gone over straight but your path must turn before or after it (or both). Each cloverleaf must contain a 90 degree turn but have straight path before and after it.

Created by David Millar and commissioned by Trapdoor Books. You can find more puzzles including Sudoku and others over at <http://thegriddle.net> & grab the book *Cyberkill* by Frank Fiore at <http://trapdoorbooks.com>
