

Instructions

Fill the grids at right with digits from 1 to 6 using standard skyscraper rules; each row and column must contain each digit and the digits outside the rows and columns note how many buildings can be seen from that position.

Additionally, clues given inside the alleys note the number of buildings seen in two directions from within the grid: up and down in the alleys running left and right, left and right in the alleys running up and down.

	3 3		4 1		6 3		1	
6		3			3		5	
	5		5 3		4 4		2 3	
2				2				3
	4		4		3		3	
	2 2 3		3 2		6 1		4 3	
2		5		2		2		1
3		3		3	1		4	1
2		4		4	3		3	
	3 2 4		4 4		3 4		3 3	
1		3		6				2
2		2		3	3		3	5
	2 4 1		2 4 3		3 1		2 2	
	2		3		3 2		3	
6				4				
	5 5 5		3		3 3		5	
	3		4		3 3		3	
3		4		4				2
	1		4		2 3		6 4
