

Instructions

Each of the 9x9 sudoku puzzles follow normal rules with the addition of 6 clue types (below).

In the top puzzles, odd-sum pairs must never have a difference of 1; instead, a consecutive pair clue will be given.

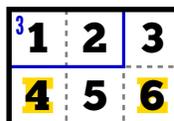

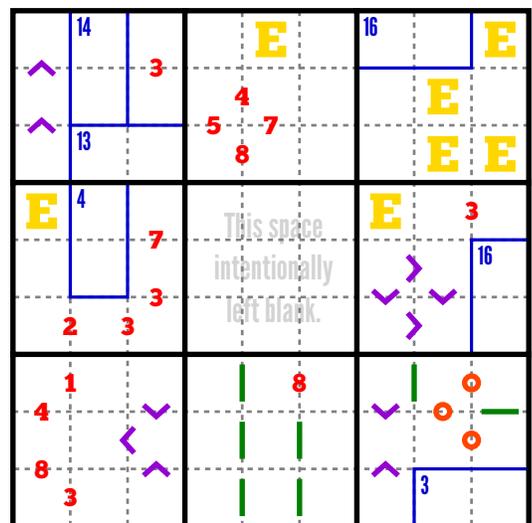

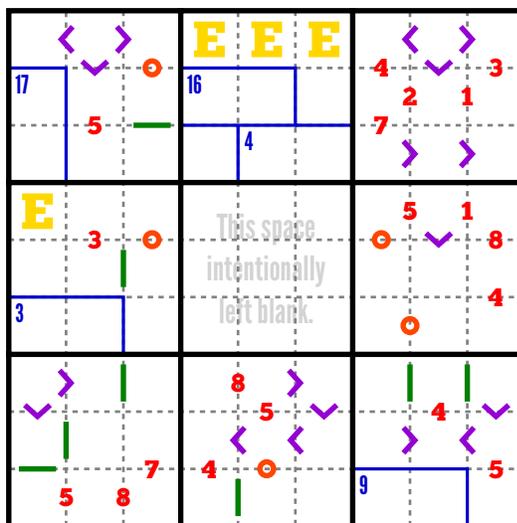

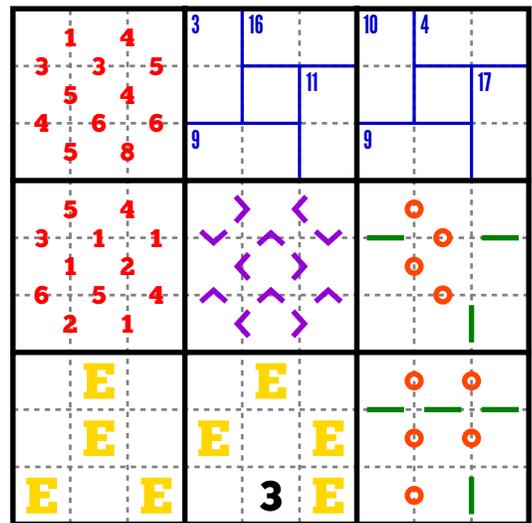

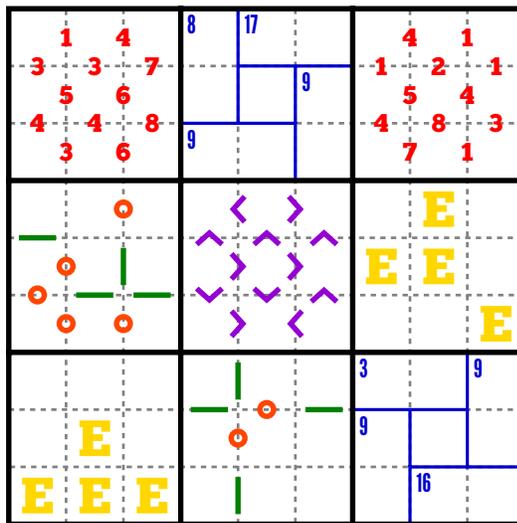

In the bottom puzzles, some pairs with an odd-sum clue may differ by 1.

Competition

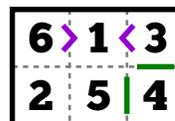

If you enjoyed this set of sudoku variants, you should enter the August Sudoku Test at Logic Masters India.

On August 6 and 7, you'll be able to solve through 18 puzzles similar to these while competing against puzzle enthusiasts. (Maybe a champion or two!)
