

### More Sum-Doku

Each row and column has all of the digits 1,3,5 and 7. The numbers in each shape are the sum of the digits in the shape. Shapes can contain more than one of the same digit.

Created by David Millar, March 29, 2006.

Edited March 31, 2006. The 5<sup>th</sup> puzzle was flawed; it had an incorrect clue in the top left corner.

Thanks to Joe for the correction!
