

### Equation Sudoku

Place one of each digit 1-4 in each column and row. Using the operators given, make the equations true. Use order of operations.

$$\begin{array}{cccc} \square & & + & \square = 55 \\ & & & / \\ \square & + & \square & \square + \square = 37 \\ / & & + & \star & + & / \\ \square & + & \square & & \square & + & \square = 28 \\ / & & & & & & \\ \square & & + & \square & & & \square = 46 \\ = & = & = & = & & & \\ 8 & 37 & 37 & \frac{1}{8} & & & \end{array}$$
