

## Instructions

Each of the 5 overlapping 9x9 sudoku puzzles follow normal rules with the various clue types (below).

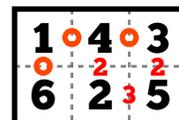

In the 3x3 squares with odd-sum and consecutive pair clues, all consecutive pairs and all odd-sum pairs are marked.

**Sum Sudoku Clue:**  
Sum of cells in the bordered area

**Greater-Than Symbol:**  
Notes which cell holds greater digit.

**Pair with Odd Sum:**  
Digits in the two cells have odd sum.

**Quad Given Clues:**  
The 4 adjacent cells contain these digits

**Consecutive Digits:**  
Notes digits that are neighbors; 1/2, 5/6...

**Difference of Pair:**  
Difference between digits in cells.
