

## Instructions

Today's piece displays various clue types used in the other grids up to this point. Place the clues into the grid marked '25' on your advent calendar sheet, and proceed to solve it - you should be able to do the whole thing now!

## Sampler

Use the sum sudoku cages, quad-prod clues, and the greater-than symbols in the same manner described in previous grids.

## Badge Code

If you have a profile on The Griddle, enter the codes below to unlock a seasonal profile badge:

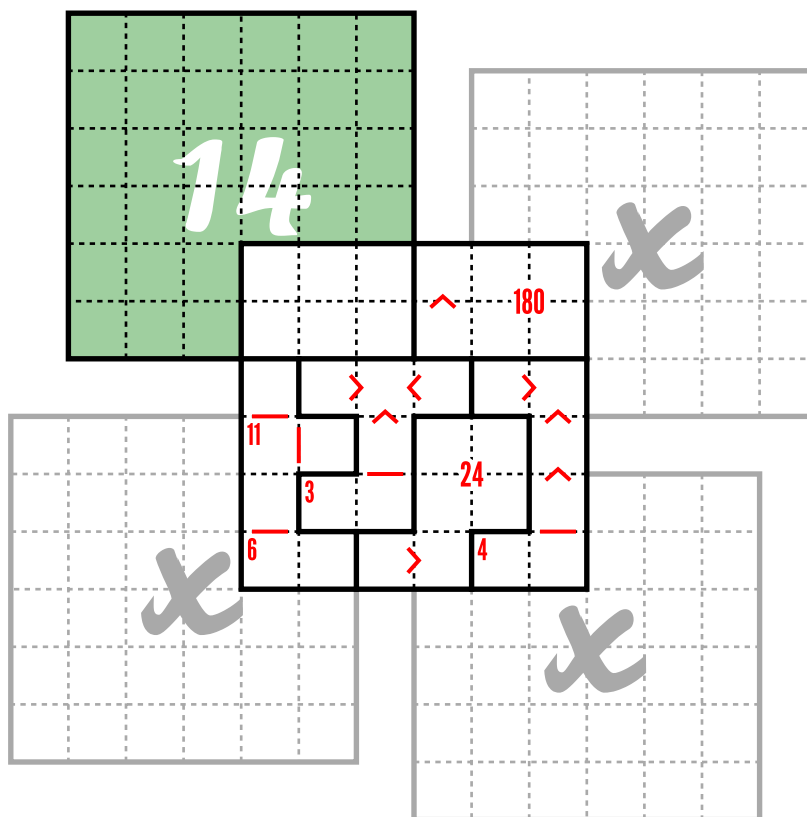

**24grids**

**later**

## Postcard

If you've completed the 2011 6x6 Samurai Sudoku Advent Calendar and would like a postcard, send your solution and address to me at [davmillar@gmail.com](mailto:davmillar@gmail.com)

Postcards are first-come first-served as long as I can keep up, with U.S. addresses taking slight priority as I have stamps on hand.

## Merry Christmas!

Merry Christmas, happy holidays, and thank you to the puzzle community. Without your support, this Advent Calendar and many of my other puzzle-related endeavors would never have happened. Thanks again, and I'm looking forward to bringing everyone more puzzles in 2012, with The Griddle starting it's 7th year in February!
