

Instructions

Welcome to the third piece of this year's Advent Calendar! This year's grid is a 35x35 Area 51 puzzle. Area 51 combines many familiar clue types from slitherlink, masyu, and corral puzzles.

Errata

Thanks to Pavel Curtis for reporting a bug and its correction in the bonus puzzle, as well as to all the other puzzlers who found the error and reported it shortly thereafter.

Bonus Puzzle! Round Trip

Solve the given Area 51 puzzle and transpose the loop to the bottom grid.

In the bottom grid, place the digits 1 through 9 in each row in sequence from left to right. The sequence will not necessarily start with 1 in the first square; it may start with any digit, then will wrap from 9 to 1.

The Area 51 loop splits the grid into several multi-digit numbers, and the sums of some rows and columns have been given.
