Inequal/Diff. Curvedoku

September 28, 2014

Instructions

In each puzzle, fill each bent row and each 9-cell dark-outlined square with one of each digit from 1 to 9 with no repeats. Digits in the curves are provided.

On one side, pairs of cells are marked with greater-than signs to show which cell's digit must be greater.

On the other side, the difference between the cells' digits are provided.
