

Advent Pieces

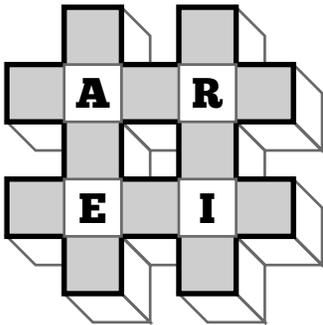

In today's puzzle piece for the sudoku calendar, each circled cell must contain the sum of the digits from the cells along its arrow.

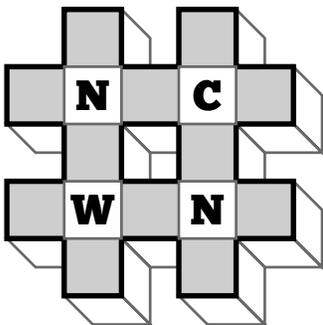

2 Bill's last day was before his giftee's last day.

Bonus Puzzle

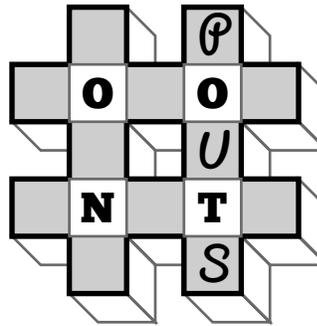

Today's bonus puzzle is called 'Hashtags'. In each of the grids given, place letters in the shaded cells to form two sets of words: four 5-letter words using all the letters in a row or column, and four 3-letter words using the letters from only the shaded cells. Each puzzle has had its clues split into sizes and alphabetized, so the clues on the same line as one another are not necessarily a pair in the grid.
