

## Advent Pieces

In today's puzzle piece for the sudoku calendar, I present some Numcross clues. All of the clues for the entries reference other calendar pieces.

**16**

This space intentionally left blank.

**Across**

A Day 9's bottom row + 30  
D Day 10's top row x 2  
E Day 11's right column x2

**Down**

A Day 20's middle row mixed  
B Day 3's top row - 60  
C Day 23's top row x 3

## Sub-Puzzle

Today's sub-puzzle is a series of true-or-false questions.

- |  |      |       |
|--|------|-------|
| 1. The answer to this statement is the same as the answer to statement 3.    | True | False |
| 2. The answer to statement 4 is False.                                       | True | False |
| 3. The answer to this statement is different from the answer to statement 2. | True | False |
| 4. The answer to this statement is the same as the answer to statement 5.    | True | False |
| 5. Of statements 1-4, two are True and two are False.                        | True | False |
| 6. Of statements 1-4, three are True and one is False.                       | True | False |
| 7. Statements 5 and 6 both have the same answer.                             | True | False |
| 8. Carlos purchased the new age crystals for his giftee.                     | True | False |
| 9. The answer to this question is the same as the answer to statement 10.    | True | False |
| 10. This puzzle has more False statements than True statements.              | True | False |
