

Advent Pieces

In today's puzzle piece for the sudoku calendar, each circled cell must contain the sum of the digits from the cells along its arrow.

25

Bill's last day was after the last day of the Santa that bought the opossum mittens.

Today's bonus puzzle is Spinner Kakuro.

Complete the kakuro grids using standard rules for kakuro: use the digits 1 through 9, no repeated digits in a section of row or column between dark lines, and the digits must total to the sums provided.

Additionally, placement of digits in the dash-outlined 'spinners' must be done with 180 degree rotational symmetry.
