

## Well, Shoot

The Griddle is 10 years old today. I feel old.

		2	8 6	4
3	+		=	
	=			+

2		+
7		=
		5

## Number Soup

In each grid, place each digit 1 through 9 using the arithmetic clues and number soup pieces given.

Soup pieces must not be rotated or reflected when added to the grid.

2	6	9

## Consecutive Arrow Sudoku

In this sudoku variation, fill each row, column, and 3x3 square with each digit 1 through 9, sans repetition.

Digits in cells along arrows must sum to the digit in the circle attached.

Every pair of adjacent cells with consecutive digits are separated by a bar. (e.g. 1|2, 2|3, 8|9)

The inverse also applies: pairs without a bar cannot be adjacent digits.

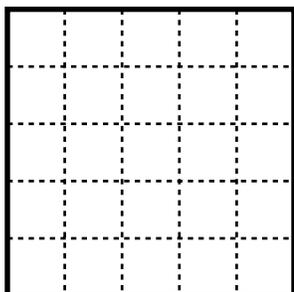

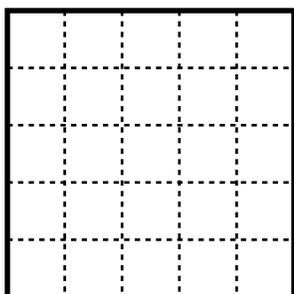

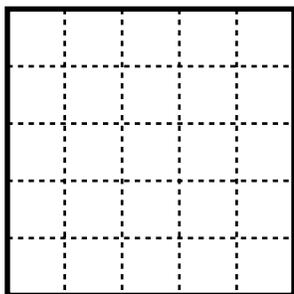

Thanks to Nancy for pointing out a missing clue in the original posting of this puzzle!

## Pent Words

In each puzzle, split the grid into pentominoes (5-cell shapes) and fill each cell with a single letter.

Numbered clues have been provided for the words created by reading across each row.

Clues are also available for pentominoes, but are given in no particular order. Those words are formed by reading left-to-right, with the top row first.
