

Instructions

In each puzzle, divide the grid along the provided guides to form a number of contiguous regions.

When complete, each of the regions should contain one mouth, and the rest of the squares in the region should sum to the number displayed in the mouth.

This puzzle is inspired by my mistaken remembrance of the puzzle 'Blocker' from a Nikoli magazine I once received. Blocker, however, provided the size of each region as well as the sum.

'Mouth Force' was the result of faulty machine translation in my attempt to translate the Japanese for Blocker into English.
