

Instructions

In each sandwich puzzle, stuff the space between the slices of bread (one letter per quadrilateral*) so that two words read down each column and two words read across the filling of the sandwich.

The words reading across each sandwich will spell the name of an item from my shopping list.

Be careful: some columns could spell more than two different words!

*It's a Trap!

I'm not about to get into the trapezoid vs trapezium debate.
