

Instructions

Fill each petal (triangle) with a letter to spell the answers to the provided clues.

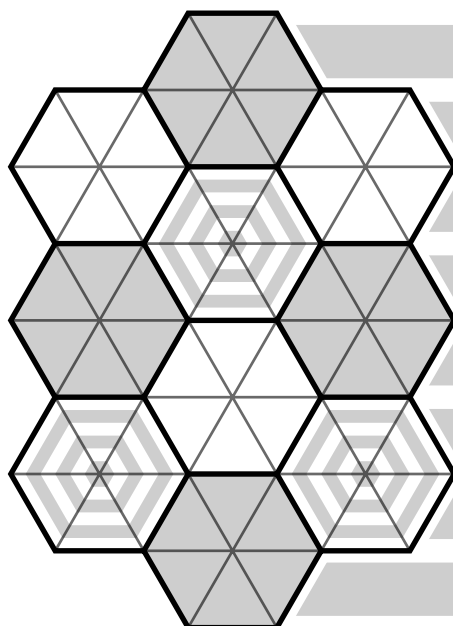

Each row has one or two clues, separated by slashes, whose answers must be entered left-to-right in the order provided.

Blooms, indicated by dark-outlined hexagons, are all six-letter answers which are grouped by color and listed in alphabetical order of their answers.

It is up to the solver to determine which answer to assign to a bloom, the petal containing the first letter, and whether the answer must be entered clockwise or counter-clockwise around the bloom.
