

Instructions

In each puzzle, divide the grid along the provided guides to form a number of contiguous regions.

Each of the regions should contain one mouth, and the rest of the squares in the region should sum to the number in the mouth.

Example by Arma

3	4	9
3	5	2
21	8	3

3	4	9
3	5	2
21	8	3

Background

This puzzle is inspired by the puzzle 'Blocker' from a Nikoli magazine I once received. In the original Blocker, clues provided the size of each region as well as the sum of the digits.

The name is the result of faulty machine translation of the Japanese for Blocker into English.
