

Instructions

In each 6x6 grid, place one of each tile in each column, each row, and each six-cell region following sudoku rules, and forming paths between the exit nodes.

Not every cell will be used as part of a path between exit nodes. It is left as an exercise for the solver to determine which exit nodes form pairs.

The Tiles

I've given each tile a one-character name so as to facilitate text-based communication when I am working on these:
