# The Two Plumbers

Instructions

Two plumbers, one messy, one tidy, and each have their own method to tackle the jobs on this sheet. On the left, the messy plumber uses Path Sudoku to connect the two exits: use one of each of the tiles below in each row, column, and 2x3 rectangle. Not all tiles will be part of the path between the exits.

r — 7

L I J

The tidy plumber makes use of every square to form a single path from exit to exit, and can employ any of the six above tiles as well as a crossover. (It must be treated as two overlapping straight segments.)
