Black－Out Friday

## Yajisan－Kazusan

Shade some squares in the grid so that all unshaded clues accurately display the number of shaded squares in the direction of the arrow．No two shaded squares may share a side， and all unshaded squares must form a contiguous region within the grid．

## Clone Aqre

In Aqre，shade some of the squares so that each bold－ lined room with a number contains that number of shaded squares．All of the shaded squares must form a contiguous region．There may not be more than three unshaded squares in a line， nor more than three shaded squares in a line．

## Throwing Shade

In Throwing Shade，shade some squares in each row and column so that the letters in the remaining unshaded squares spell answers to the provided clues．The clues are listed in alphabetical order by corresponding answer．
