Maze Maker

Make a maze from the grid by filling walls. The only branches by 3 or 4 paths occur where there are red stars. The only dead-ends occur where there is a blue X. The entire outside border should be filled with walls and every square in the maze must be reachable, but the maze cannot have any loops (IE, a unique solution).

Grid 1:

★		★	
★			X
	X		
X	X		★

Grid 2:

		★	
X		X	X
	★		★

Grid 3:

★			X
★			X
★			X

Grid 4:

	X	X	
★			★
		★	X

Grid 5:

		X	
★			X
	★		★	X
X		★
