

Fit all of the pieces into the 3x3 block without rotating or flipping them. When the pieces are in the right spots, the addition problems in the block should be correct.

The triangle braces must point toward the smaller of the two neighboring digits.

White Blooms

Some moisturizers
Flying machines
Stone workers

Striped Blooms

Picked for a role
Ill-fated
Turning point

Gray Blooms

Copied by hand
Shirt part
Wax item
Root veg

Today's feature puzzle is Rows Garden. Place letters into the 'petals' in the grid to form the answers to the clues. Each row contains one or two entries, and each 'bloom' contains a six-letter word surrounding its center. It's up to the solver to determine where the word starts and in which direction the word winds around the center.
