

**11**

**21**

Each shape has a unique value from 1 to 9. Use the combined values to help determine each shape's value, and use those values along with sudoku logic and previous days' answers to complete this block.

Neighboring pairs marked with an X must sum to 10.

Today's feature puzzle is Kakuro. Place digits from 1 to 9 into each grid cell to form the sums provided. No row or column segment may repeat a digit.
